

# RETIREMENT GOAL WORKSHEET

Please input the **ANNUAL** expenses you need to live on and additional wants you desire for your retirement not including income taxes. Do not factor in inflation but figure these amounts in today's dollars. For retirement expenses, please input what you would need to have at retirement as well as additional wanted numbers. Please note, input only the additional amount over the "Needs" amount in the "Wants" column for any category of wants that is higher than needs. Input your desired retirement age under "Wants" and the oldest age you would accept retirement under "Needs". If you are married, under the Survivor Amount column put the amount that the survivor would need for that expense when the first spouse dies.

ANNUAL EXPENSES	RETIREMENT NEEDS	RETIREMENT WANTS	SURVIVOR AMOUNT
<b>Projected Retirement Age</b>			
Mortgage: Mortgage Ends        /        /
